

100 % Guaranteed Lead Generation Service

What is this service designed to do? To help small to medium sized businesses increase their customer base, market share and overall profit margins and to assist in ultimate sustainable business growth.

How do we do this? It's simple. We are web design and digital marketing experts. We own many different websites in lots of different industries, cities and local area codes. Through our own marketing efforts, we gain great exposure for our websites allowing us to reach more of your potential target audience. All we need is a reputable partner that's hungry for more business, keen to grow and capable of handling a surge in enquires.

From then, the process is very straight forward:

1. You will be renting one of our websites which will include all telephone calls generated through our exclusive local number and all emails submitted through the sites contact us form.
2. Potential customer calls the number on our website.
3. We set this number to divert directly to **YOU**, our partner on any number of your choosing. We can even divert the calls to different numbers at different times of the day, for example day & night shifts.
4. You answer the call as normal, the customer will be unaware the call has been diverted.
5. You pitch your services, just as you would do normally.
6. Emails are sent directly into **YOUR** inbox when a customer fills out a contact form on the website.
7. We record the calls & emails the site receives and charge you according to a pre-arranged pricing plan which offers excellent value for money compared to other Digital Marketing options.

What's the benefit to my business? This is where our concept is somewhat unique and perhaps not your everyday style of online marketing. The main benefits to **YOU** are as follows:

1. Conventional methods of marketing offer no guarantee that you will receive an increase in business as a result of your efforts or the money you spend, our service does.
2. Standard marketing processes can be costly with no clear indication of return on your investment.
3. Most marketing agencies charge up front, sign you into a lengthy contract and have no guarantee that your money will ever be made back. We don't charge up front, don't ask for lengthy contracts and guarantee to make your phone ring!
4. Our service is cheaper and comes with more guarantees than Pay Per Click advertising or google AdWords.
5. We do all the marketing, take all the risk and cover all the costs so that you don't have to. You only pay for genuine business related enquiries. If your phone doesn't ring, and you receive no new business enquiries, you don't pay us a penny, simple.

How Much Does This Cost? P.O.A (Monthly Fee Applies **only** if you receive enquiries)

Is there a contract or upfront fee? We don't believe in contracts or upfront fees. Our service speaks for itself. If you don't like it, you're free to leave with only 1 weeks' notice period.

What are the Guarantees? 100% Risk Free. No leads = no invoice, simple.
